

Resource Family Mileage Log

Foster and kinship families are expected to assist with the transportation of children in their homes. PARTNERS will only reimburse documented and requested mileage at the current State of Missouri rate. Placement provider must submit a minimum of 50 miles per month to qualify for reimbursement. Reimbursement will be approved for transporting children to medical, dental, mental health appointments, meetings regarding the case, court hearings, family/sibling visitation, and school meetings. Completed forms should be submitted to the child's caseworker monthly. Separate forms will need to be completed for each child or sibling group. Please ensure that the form is accurate before submitting to agency for final approval. Placement Provider address is the beginning address for all trips.
